## LIVING WALLS

### Ingenious Futuristic Surreal

CALL US WHAT YOU LIKE

As a market leader in traditional wall properties like acoustics, fire-resistance, sound insulation and design possibilities, Maars now goes a step further. We have developed a portfolio of integrated solutions called "Living Options". Living Options offers space efficiencies and creates streamlined, modern & functional working environments. The integration of the latest technologies in our walls makes our solutions truly come alive.

↳ *The Living Options program from Maars offers **surprising possibilities** for integrated functions in **wall systems**.* ↳

*In today's world, digital technology has changed the way people utilize spaces. Maars offers a wide range of integrated multimedia that provides instant access to digital content in every wall elevation you need.*

# multi media

## Media Wall

- Media centres; stand alone or connected with tablets and/or laptops
- LED TV's secured behind flush glass tiles
- Interfaces come alive when activated by human interaction

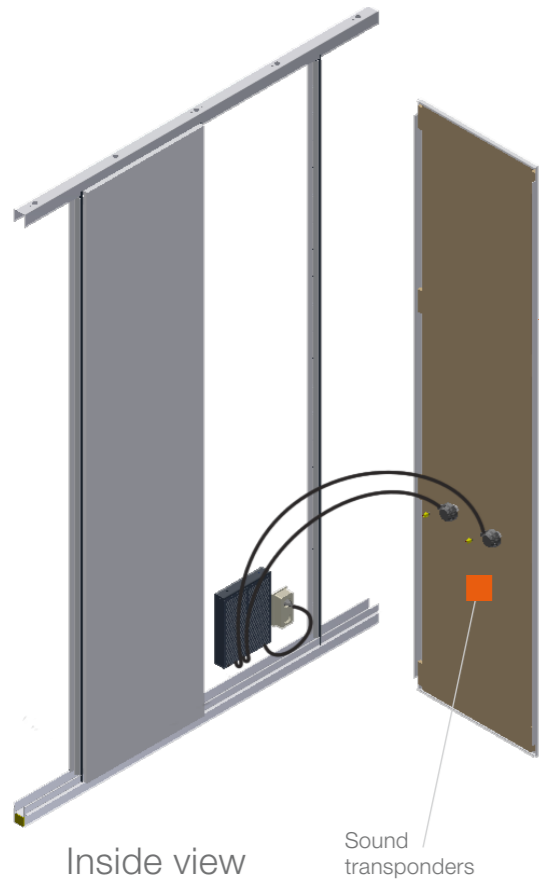

## Optional

Select your own optional integrations for the Media Walls:

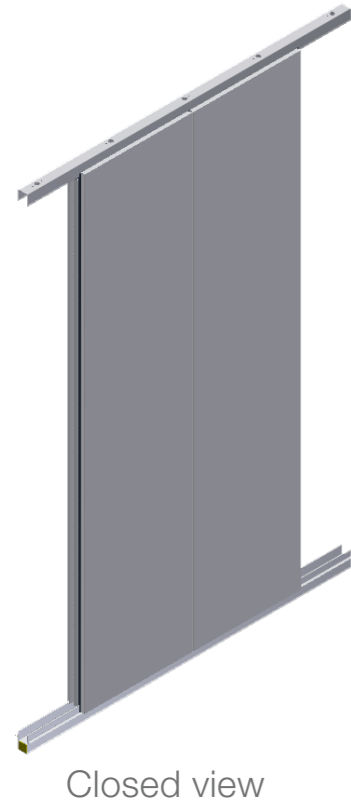

- **Media content streaming:**  
run wireless presentations by mirroring your device on the screen
- **Touch-screen technology:**  
turn the wall into a large touch screen
- **Room Automation:**  
control the screen, light, temperature, security and all other electronic equipment from one central device

## Sound Panels

- Turn the surface of your wall into a speaker
- Sound waves spread evenly throughout the room
- Dolby Surround if applied in more than one location in the room
- Possible on all steel and glazed elements
- Perfect in combination with Media Walls

## Media Panels

- Separate media and Dolby Surround unit
- Can be placed on any existing wall or free standing in the room

*Imagine, razor-sharp sound by using the entire wall as a speaker, interactive screens which appear out of nowhere and integrated screens with wireless connection to an iPad or laptop.*

## Impressions

- Create unique environments with designs and materials
- Custom digital prints available on wood and steel panels
- Film and sand-blasting designs on glass modules
- (Natural) Materials applied in window frames

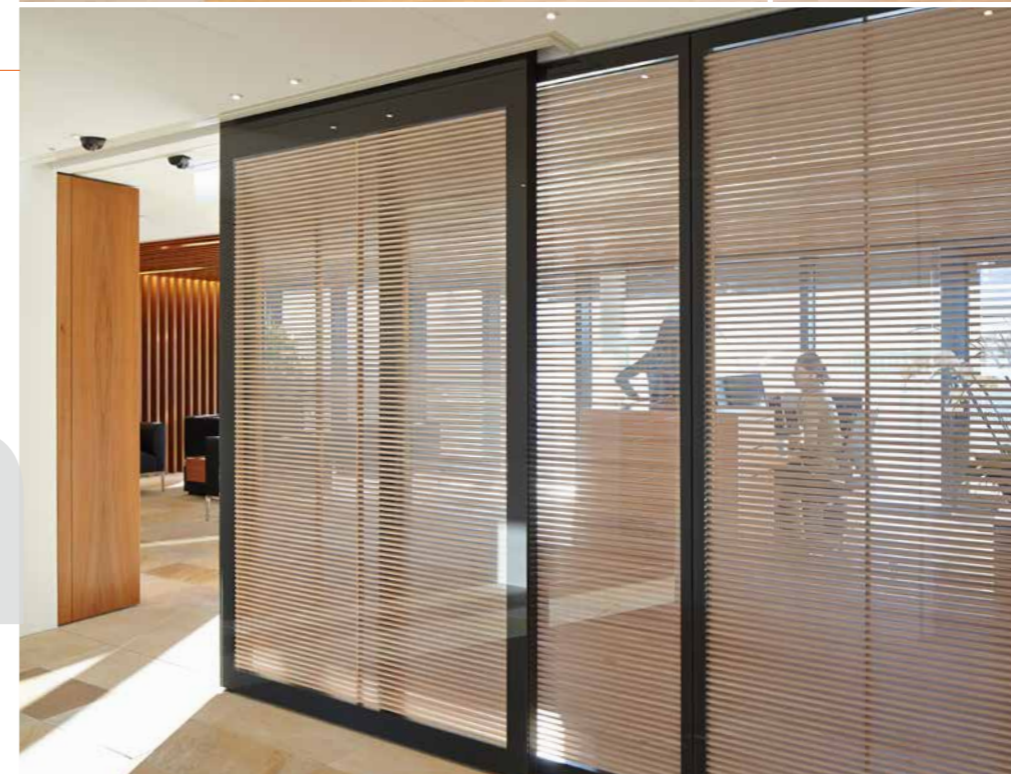

## Privacy Glass

- From maximum transparency to instant privacy by the push of one button
- LCD technology available in glass walls and Flush glass doors

## Blinds

- From transparency to total privacy
- Controlled manually or fully automatic
- Horizontal or vertical slats available in a wide range of colours and designs

*Create an environment which inspires, makes you perform better and feel safe. This can be achieved by sophisticated integration of light, colours, textures, patterns and images into the walls. Maars offers a wide range of options to create an environment which perfectly fits the function of the space.*

# design

## Maars Fashion

- Extensive range of unique uses of materiality. For instance, fabrics, leathers, skai, felts and exotic veneers
- Large variety of materials, colours, patterns and textures
- Steel construction tiles guarantee high performance in fire-ratings and sound privacy

## Dynamic Lighting

- Integrated LED lighting
- Display text or even give complete light shows
- Various light settings to encourage emotion and activity
