

maars LIVING WALLS®

M923.™

the wall is yours

maarslivingwalls.com

Welcome to the world of Maars! Established in 1946, Maars is currently global market leader in modular wall solutions, supported by our dedicated employees. We offer the most innovative integrated wall solutions for markets such as healthcare, offices, airports, education, hospitality, industry and retail.

Ongoing product development and specialization is based on growing insights and worldwide collaborations with dealer partners, customers and architects. The result: a wide range of solutions spanning basic to high-end design, that meet certified fire ratings and acoustic performance benchmarks.

Maars Living Walls shows how our solutions enable you to be one with your environment, thanks to smart integration of all the latest technologies, materials and functions. Get inspired – discover more about Maars, our solutions and global capabilities in this brochure.

living walls

“ The whole point of an open office is to keep it open. But a truly open office comes with a high price. Workers get distracted, the space can seem cavernous and impersonal, and the workplace becomes a fishbowl. In our new normal, the open space also can make people feel uncomfortable, even unsafe. Striking a balance is a difficult task. M923. rises to the challenge. ”

the wall

M923.

is yours like never before

M923.

Consisting of interlocking profiles with snap-in-place panels, and fully relocatable, M923. truly is a “living wall.” It defines open areas with the right type of functionality – and the right balance of porosity and privacy – for the task and tenant at hand. And it’s always attractive, no matter the configuration.

features and benefits

- Designed for ergonomics
- Durable and environmentally friendly
- More privacy and less distraction
- You design the looks and layout yourself
- Free-standing solution
- An affordable option for improving or repurposing space

M923.

In our new reality, physical boundaries are key. M923. lets you quickly create boundaries between walkways and working team members. You also can divide open areas into smaller zones and even into individual workspaces. The wall can be used to separate spaces beyond the open office – including between tables at restaurants, in lobbies and hotel registration desks, at airports, in stores and schools and more. M923. offers easy customization and personalization as well as a sense of privacy and security, both now and moving forward.

enabling focus and safety

supporting collaboration

Acoustic privacy has become paramount in the open-office environment. A variety of M923. panels let you easily improve acoustic privacy without investing in difficult-to-maintain products or entirely modifying your space.

Visual distractions have increased with the open office. M923. lets you adjust the visual boundaries in your office as your team's morph and space needs change. Height boundaries also can add to the sense of safety. With flexible options for higher and lower boundaries – even a combination of high, medium and low walls – M923. immediately adapts.

Maars' ongoing commitment to innovation and circularity has been recognized with a Cradle to Cradle™ Bronze certificate* for all our wall systems and ISO-9001 / ISO-14001 certification.

Users and architects can discover the possibilities of M923. with an augmented reality app available on the App Store and on Google Play. The AR app allows the customized wall, with all available panels, to be placed virtually in a room. The specified wall with accessories then can be easily forwarded to order.

unique possibilities

M923. panels are available in a range of colors and materials (moss, cork, absorption panels, marker boards, textiles and more). Users can easily change the panels and design the wall themselves. Because the panels are easy to change, it's possible to adjust the appearance of a space very quickly and inexpensively. The myriad options make the M923. ideal for changing up spaces from offices to restaurants to retail with style and ambiance.
